

Members Present:

Carol Bennett (St. Louis Community College), Archway, voting)
Renee Brumett (Springfield-Greene County Library, SGCL, voting)
Jim Dutton (University of Central Missouri, Quest, voting)
Felicity Dykas (University of Missouri - Columbia, MERLIN, voting)
Janine Gordon (for Jessica Hammond, MCO primary liaison)
Phyllis Holzenberg (Drury University, SWAN, voting)
Justin Hopkins (MCO secondary liaison)
Melissa Hopkins (Mineral Area College, Galahad, voting)
Patricia Logsdon (Washington University (Olin), WASHU, voting)
Andrew McGarrell (Missouri Western State University, Towers, alternate)
Ted Ostaszewski (Metropolitan Community Colleges-Penn Valley, WILO, voting)
Denise Pakala (Covenant Theological Seminary, Bridges, voting)
Kathy Renner (Westminster College, Arthur, voting)
Jean Rose (St. Charles Community College, Archway, alternate)
Mark Scharff (Washington University (Olin), WASHU, alternate)
Jean Sidwell (Kirksville College of Osteopathic Medicine, LANCE, voting)
Margaret Smith (St. Louis University (Law), SLU, alternate)
Lydia Welhan (Missouri Southern State University, SWAN, alternate)
Stephen Wynn (Truman State University, LANCE, alternate)
Anna Zaidman (Saint Louis University (Pius), SLU, voting)

Members Absent:

Sara Duff (Northwest Missouri State University, Towers, voting)
Natasha Grando (Missouri River Regional Library, MRRL, voting)
Jill Mahoney (William Woods University, Arthur, alternate)
Pamela Reeder (Missouri Valley College, Quest, alternate)
Helen Shaw (University of Missouri - St. Louis, MERLIN, alternate)
Jean Sidwell (Kirksville College of Osteopathic Medicine, LANCE, voting)
Michael Washburn (Missouri River Regional Library, MRRL, alternate)

1. Call to order and introductions
2. Adoption of the agenda
3. Approval of minutes
4. Information Items
5. Unfinished Business

6. New Business

- Request to make the Search Options menu on the right of each MOBIUS display page match the search choices in the drop-down menus. Currently, everything is in the Search Options menu except Medical Subject and Children's Subject headings.

There was discussion whether to list them separately on the menu or to treat them in the same manner as the Numerical Search option. It was pointed out that treating them the same as the Numerical Search requires an extra click and there is plenty of room to list each of them. Genre search also needs to be added. Approved listing them separately.

- Request for revision and addition to documentation on the MOBIUS website. The information in "Bibliographic Index Rules" needs to be updated (e.g., inclusion of the Genre index), and information on the tags, order, and labels for fields that appear in MOBIUS record displays would be a useful addition to the website (perhaps MCO could post the MOBIUS Record Display Definition File (webpub.def)).

Approved. *(The webpub.def file has been added to <http://mobiusconsortium.org/help-desk>. The link opens in a browser. View the source page to make it more readable.)*

- Request for turning on the 945 field display in MOBIUS MARC records which make identifies the contributing local server, bibliographic record number on the local server, item record number from the institution record, and the master record holder.

Approved.

- Issue of "orphaned" master records. When the owner of a master record removes its holdings for that record from the catalog, the ownership of the master record does not always pass as it should to the next institution in line. When this occurs, the former master record owner can neither fix the problem nor, of course, maintain the display of the bibliographic record in the MOBIUS catalog. Is there a process that MCO or Innovative can run to identify and fix these?

MCO will check with Innovative to see if there is a utility which can find and correct these. *(I have received a reply from III regarding the orphaned master records. Unfortunately they do not have a utility or tool to check the status of master records. However, any that we find and send to them they will correct. I sent them the example from the meeting but please let us know if you find others and we will send them to III to be fixed.—Janine Gordon)*

- 028 indexing in MOBIUS. "I found some cases where the 028 fields in MOBIUS is not making it into the music number index, for no apparent reason. Please see OCLC # 3087360, 8175699, 3367559, and 9270726. For the first-named record, I've asked Wendy Sistrunk at UMKC to overlay their record with an improved version from OCLC, so it will be interesting to see if that process (provided she does it) gets the number into the index. I think, also, that UMKC is the master record source for all four, so maybe that is a factor." Mark Scharff, Wash U.

Will return to this issue when attempted test correction is done.

7. Adjourn Meeting
