

Members Present:

Donna Bacon, Co-Chair	MOBIUS Consortium Office
Dennis Goodyear	Avila University
Gwen Gray	MU
Jessica Hammond	MOBIUS Consortium Office
Justin Hopkins	MOBIUS Consortium Office
Erin Lanham	St. Charles Community College
Helen Shaw	University of Missouri-St. Louis

Members Absent:

Cheryl Couch-Thomas	William Jewell College
Jamie Schmid	St. Louis University
Jim Dutton	University of Central Missouri

1. Call to order and introductions
  - Adrienne Detwiler has moved off the committee and Jessica Hammond has replaced her.
2. New Business
  - *Request* button
    - Committee likes the button in place of just a text link.
    - Right now it says *Request* but we may change it to *Request this item*.
  - Change wording of *What cluster do you belong to?* to something clearer. Suggested wording is "Please choose your library cluster from the dropdown below. Find your cluster." "Find your library cluster," will be a link to the table of clusters and institutions.
  - *Copy Status*
    - Because tabs are to be removed, this section needs to go. Copy status is a tab label.
  - Discussion on tabs
    - Committee liked the look of tabs on the Link+ catalog, but there was discussion if the webPAC really needs them.
    - Justin and Jessica will take away the tab feature. We'll review this in the future.
  - Holdings
    - For the holdings information, the catalog now says "Holdings for MOBIUS Central Database." Jessica is checking with III to see if that language can be changed. Suggestion made to change it to "MOBIUS libraries that hold this item."
  - Search options
    - Erin asked if it was redundant to have search fields listed on both the dropdown menu and the right side of the screen.

November 18 2009, 1:00 p.m., online via GoToMeeting.com

- Suggestion made to widen the search box on the main page. The group liked the width set at 35. Justin said they can widen it a bit more.
- To distinguish the options in the right margin, MCO will try adding bullets or arrows.
- MCO will work on making *Advanced Search* more prominent in the right margin list.
- *Book Cart*
  - Patrons may believe that all items moved to the book cart can be requested in one batch request. They can email or print all in one move.
  - MCO will edit the icon next to each record to read *Save for email/print* or *Mark for email/print*. The icon at the top of the screen will read something along the lines of *Marked for email/print*.
- *Advanced Search*
  - Jessica changed "Publisher Keyword" to "Publisher."
- Font sizes
  - Need to be edited.
  - Sizes on *Advanced Search* page are too large.
  - Fonts don't match across the interface.
- MOBIUS member map
  - MCO has a Google map from the state library which shows member institutions color-coded by cluster.
  - Consensus of group is that this is an improvement over the old one.

MCO will edit the WebPAC on the staging server and notify the task force when they're ready. We will have another meeting via GoToMeeting.com in January.

3. Meeting adjourned at 2:15 p.m.
4. Respectfully submitted by Gwen Gray
