

MOBIUS

Catalog Design Advisory Committee

Proposed Agenda
November 14, 2003

Minutes from July 2003—as distributed by Mary Ann Mercante

MOBIUS Update

Items to note from last meeting's update which need to be "finally" reported on:

- o Item status—you CAN'T limit by item status
- o Deduping project—how it went and a look at the stats
- o Marcive project
- o AACP
- o Pick-Up Anywhere—status of testing
- o Springfield-Greene County—how do we count ILL's? (MoBius, Non-Mobius) note to MAAC
- o "AVAILABLE" is only status in caps Sent to III

Catalog Redesign -- <http://mobius.missouri.edu:2082/search/>

Final look at the sub-committee's proposal—ACTION ITEM

Phase 3 Enhancements

Various decisions need to be made on phase 3 enhancement issues--
ACTION ITEM

LDR Batch Load Project

* If library has multiple serials records, do they need to send all if need changes?, Robin to find out and disseminate information.

MOBIUS Faq's

Look at proposed beginning from Bonnie

891 MARC tag—serials pattern data

"Stealing of records"

turn off MARC export capabilities?? No changes at this time

Clickable location codes

Helpdesk requests that we at least reconsider this issue No Changes at this time

856's – History of this topic was emailed in July (check archives of MCDAC-L)

Propose an enhancement request to solve the problem
in Check-in records— ACTION ITEM??? Make status blank for serials
Can 956 be hotlinked? Request sent to III.
(OCLC#9489007 for an example of the problem.)

in TOC's [Standardization and tacit knowledge for an example.] Discuss in clusters,
Merlin will retain
