

Galahad Meeting Minutes
Three Rivers Community College
November 7, 2001

Mineral Area College

Chris Burns
Roxanne Cummings

MOBIUS Office

Jim Dutton

Southeast Missouri

Sara Cron
David Glick
Melissa Muth
Cathy Roeder

Three Rivers

Gordon Johnston
Diane Rodriguez

Serials Training

Jim informed the group that Julie from Innovative has the last week of January and all of February open for serials training. Jim will send a list of dates when Julie can do serial training, and asked us to let him know which ones are good for us.

Acquisitions Training

We are not ready for acquisitions training yet. Jim said we need to get use to circulation and serials first. He will check with Mark and the Quest Cluster to determine if we can share training hours for acquisitions. That training might be held in Columbia.

Barcoding

David Glick has set up the following schedule for SEMO staff to help TRCC and MAC with their barcoding:

Three Rivers Community College

Six SEMO staff will work from 9:30 a.m. to 4:30 p.m.
Monday, December 17-Thursday, December 20
Monday, January 7-Thursday, January 10

Mineral Area College

Two SEMO staff will stay in Farmington work from 9 a.m.-5 p.m.
Six SEMO staff will arrive by van, and work from 9:30 a.m.-4:30 p.m.
Monday, December 17-Thursday, December 20
Monday, January 7-Thursday, January 10

Lunch will be provided. Either Cathy or David will also be present.

Webpac

We have a new list of options that we discussed. Jim explained how the Release 2001 Manual at csdirect.iii.com searches differently than the manual in Innopac.

The scope page of our individual institutions can have whatever we want on them. We need to give a list of the indexing we want to Hardy for when he puts the pages together.

Galahad Web Page

Melissa Muth from SEMO gave a presentation of Galahad Web pages. She showed samples of the main cluster page and the cluster search page. Some of the items of discussion were the main page design, pull down menus, buttons, colors, and other items. She explained the purpose of the main page was to introduce the cluster to the user, and it should be a "clean page."

Next Meeting

The next meeting will be November 14, 2001, at Mineral Area College. The meeting will start at 10 a.m.

Respectfully submitted,

Chris Burns
