David Glick
Cathy Roeder
Three Rivers

Gordon Johnston
Stacey Ward

Location Codes and Item Types

Jim answered questions and gave additional direction to cluster representatives concerning **Item Field Mapping** and **Location Codes Mapping Table**—assignments from the June 21 meeting. He needs the completed assignments returned to him as soon as possible.

Field Group Labels and Tags

BIB-1: The field group labels and tags will determine the order of display. Three Rivers Community College uses medical subject headings. It was decided that instead using the field group tag of “j” for medical subject, the field group tag of “k” for added keyword would be used.

BIB-1&2: Jim explained that anything not displayed in the MARC tags on this sheet will be stripped out. Jim went through each of the MARC tags during the meeting.

BCODE Values (#BIB-3)

BCODE1 (Bib Level): Selection: Any, Book, Serial

BCODE2 (Material Types): The group decided to wait until Cathy could send us a list of material types the MOBIUS Catalog Design Advisory Committee is looking at for this section before a decision is made. Later, we will decide if we want to use the material types currently used by MOBIUS, use the proposed ones, or others.

BCODE3 (Suppression/Contribution): Jim explained what some of the abbreviations were, for example: DIS LOC/CEN (Display Local/Cluster).

Subject Headings (#BIB-9)

This section is completed. We do not need to do anything with it.

Call Numbers (#BIB-10)

For this assignment sheet, we need to provide holding symbols and a list of preference for call number hierarchy.

Indexing Profile (#BIB-11)

Under **Index Tag**, the “j” Medical Subject will be replaced with “k” Keyword.

The meeting ended after discussion of Index Tag t, MARC Tag 247. This will be continued at our next meeting.

Other

David Glick distributed a chart to be used to record the circulation and fine policies of MAC, TRCC, and SEMO. He said he would send this same form via e-mail to be completed by each institution and returned to him.

Next Meeting

July 11, 2001, at Three Rivers Community College in Poplar Bluff.

Respectfully submitted,

Chris Burns
