

## **WILO Catalogers Committee**

### Meeting Minutes

March 21, 2011

MCC-Penn Valley Library LR214

Present: Ted Ostaszewski (MCC), Catherine Eilers (SPST), Susan Beyer (MBTS), Dennis Goodyear (Avila), Danielle Theiss-White (RU)

Not Present: Cheryl Couch-Thomas (WJC), Jenni McSpadden (KCAI; on leave)

The minutes for the Committee meeting of October 25, 2010 were approved without changes.

Ted Ostaszewski reported on the MCDAG meeting held online on March 11, 2011. Susan Beyer also attended:

- Combined the January and April meetings, next MCDAG meeting TBD.
- Ill reindexed the 028 field.
- Attention drawn to Bibliographic Indexing Rules document located on MOBIUS website under Collection Management, Cataloging Policies & Procedures.
- MCO added more search options for subject headings to MOBIUS WebPAC.
- 945 fields appearing in MARC displays on MOBIUS WebPAC; subfield o designates the master record.
- Christopher Gould requested clusters to code new bib records that don't need to be sent for authority control in the BCODE3 field.
- Group will hold online meeting to determine next full meeting date.

### Unfinished Business

- No unfinished "old" business was discussed.

### New Business

- Discussed 6XX \_7 fields appearing in downloaded MARC records with subfield 2 of "gtt," etc. Should we ask MCO about suppressing these fields? Should we relabel them at "MISC MARC" so they won't display, or just delete them? Some catalogers have been deleting them and some have not. Ted will discuss options with MCO and report back to the group.
- Serial holdings: OCLC requires records submitted by MCO for update to be in patterned format (853/863). The use of 866 for a summary statement of holdings is okay but will not be accepted by OCLC. Patterned holdings are best built by using the Holdings tab in the Checkin record.

- New edition of Dewey! 23<sup>rd</sup> edition coming out soon. Also new website for WebDewey at <http://www.dewey.org/webdewey>.
- MARC validation tables need to be updated to recognize new MARC tags. Ted will ask MCO to do this for us.

#### Member Reports

- Dennis reported that weeding projects continue at Avila. Also, several Gale reference titles have been switched from print to online.
- Danielle reported that the same thing is ongoing at Rockhurst.

#### Next Meeting

- Next WILO catalogers meeting will be determined when the next MCDAG meeting is scheduled. The group will need to select a new alternate member for when Susan moves into the group leader/rep position on July 1<sup>st</sup>.

Respectfully submitted by Dennis Goodyear
