

LANCE Cluster Profiling Meeting November 9, 2000

LANCE cluster members met November 9, 2000 at MACC to continue working on profiling worksheets. Present were Valerie Darst, Tesuk Im, Karen McClaskey, Pat Teter, Connie Jacobs, Melinda Hettinger, Cayral Coffman, Leisa Walter, Mary Sims, Jean L. Sidwell, Julie Andresen, Bob Lindsey, Sharon Upchurch, Robin Kespohl, and Hardy Pottinger.

Introductions were made and then Robin updated members on MCO /MOBIUS activities that included authority record updates and continuing consortium statistics problems. The agenda for TestPac training was reviewed; training will take place November 13-14, 2000 at Truman State University. Data load schedules will be established after TestPac training.

Circulation worksheets were reviewed for questions. Deadline for the C-12 pcodes worksheet is November 17, 2000.

Worksheet PAT-2 was distributed and approved.

Acquisitions worksheets A1-A6 were reviewed and discussed. Robin will send us option group fields information.

WWWOptions were discussed and the LANCE Web Server Options worksheet filled out for testing usage. Hardy reviewed the preliminary WILO web page design and discussion followed on LANCE web page design. Hardy requested that each institution send an electronic file of their institutions logo along with information on each institution's school colors.

The next profiling meeting will be November 17, 2000 at MACC. The main agenda item will be the TestPac.
