 - ◆ Stats
 - ◆ Message from George Rickerson
 - Damaged items procedures- Marian Davis
 - Updating OCLC constant data records to include Ariel & email capabilities
- ❖ Other Business
- ❖ Next meeting

Agenda Item for Tomorrow

- ❖ Greetings-
- ❖
- ❖ MCO staff have been discussing some of the issues we identified with
- ❖ PUA. We discovered that many of the accidents reported were a result of
- ❖ using the incorrect interface to check PUA items out to remote site.
- ❖ Millennium Circulation must be used for this function. A solution would
- ❖ be to remove the following menu item in the character-based (telnet)
- ❖ interface as illustrated in the graphic below:
- ❖
- ❖
- ❖
- ❖ We can find no reason to keep this menu item, and its removal would
- ❖ prevent the aforementioned accidents from occurring.
- ❖

❖ For your consideration.

❖

❖ Thanks,

❖ Gary

❖

❖ Gary L. Harris, Assistant Director

❖ MOBIUS Consortium Office/
