

**Members Present:**

Carol Bennett	Archway	St. Louis Community College
Ethan Condray	Arthur	Lincoln University
Bryan Dunlap	MRRL	Missouri River Regional Library
Jim Dutton	Quest	University of Central Missouri
Megan Durham		MOBIUS
Melissa Hopkins	Galahad	Mineral Area College
Patricia Logsdon	WashU	Washington University (Olin)
Andrew McGarrell	Towers	Missouri Western State University
Ted Ostaszewski	Kansas City	Metropolitan Community College-Kansas City
Denise Pakala	Bridges	Covenant Theological Seminary
Kathleen Schweitzberger	MERLIN	University of Missouri-Kansas City
Stephen Wynn	Lance	Truman State University
Anna Zaidman	SLU	Saint Louis University (Pius)

**Members Absent:**

Renee Brumett	SGCL	Springfield-Greene County Library
Carolyn Chittenden	Camden County	Camden County Library
Renee Gorrell		Goldfarb School of Nursing at Barnes-Jewish College
Phyllis Holzenberg	SWAN	Drury University

**Guests or Proxies Present:**

Christopher Gould		MOBIUS
Susan Morrisroe		Missouri State Library
Steve Strohl		MOBIUS
Lindsey Taggart	SWAN	Forest Institute of Professional Psychology

1. Call to order by Andrew McGarrell and introductions
2. Adoption of the agenda
3. Approval of minutes from August 23, 2013

4. Information Items

- Kathleen Schweitzberger reported that the MERLIN cluster had a problem overlaying bib records when their record numbers increased from 8 to 9 digits. A call to Innovative quickly fixed the problem but it is something to be aware of when your cluster has to increase the size of their record numbers.

5. Old Business

- There was a discussion of the report from the Backstage RDA profile working group that was submitted at the last meeting. Should it be revised in any way or approved as submitted, and then what should be done with it. The report was deemed to be a guideline for clusters to use as a starting point for creating their own profiles and not prescriptive/proscriptive in any way. Denise Pakala made a motion seconded by Ethan Condray to approve the report as submitted. The report was unanimously approved as submitted and will be posted as a document at the MCDAC page at MOBIUS.

6. New Business

- Susan Morrisroe from the Missouri State Library was a guest at the meeting to discuss changes arising at the Internet Archive Missouri State Publications. Documents are no longer accessible through OCLC CONTENTdm, so the individual records in the MOBIUS and cluster catalogs with links to the documents no longer work. Christopher Gould said that MOBIUS could not easily fix these records. Susan Morrisroe said they suppressed these records in the Arthur cluster catalog. Kathleen Schweitzberger asked if the State Library had a list of these records that clusters could use to identify any records that might be in their catalog. Carol Bennett said you could create a list of these records by searching the 856 field for "Missouri State Library", and Andrew McGarrell said you could also search by "OCLC digital archive". These records should be suppressed from the catalog until there is a way to link directly to the documents through the catalog record. Susan Morrisroe will send a list of the OCLC CONTENTdm records to MOBIUS and Megan Durham will post them to the MCDAC members. Kathleen Schweitzberger asked if the instructions on how to access to these documents could be posted at MOBIUS.

7. Old Business

- MOBIUS staff reported that they are still getting information from Innovative on the Enhanced Matching program to see if that would help alleviate the problem of print and electronic records being merged in the MOBIUS catalog.
- Andrew McGarrell sent a message to Cindy Dudenhoffer enumerating the points that were made at the last MCDAC meeting concerning which records should be contributed to the MOBIUS catalog. Many records create duplicates, and are institution-specific and not generally accessible. Kathleen Schweitzberger said that MERLIN does not send their

subscription E-book records to MOBIUS. Andrew McGarrell said Cindy Dudenhoffer will submit recommendations on this topic at the MOBIUS Board meeting October 18.

8. New Business

- Anna Zaidman wanted to know when EMO updates would be done. Christopher Gould said that EBSCO gave MOBIUS records for the collection as it existed on January 1, 2013, and it contained titles which have since been deleted. He has a file of these deleted records and is in the process of removing those EMO records from the cluster catalogs. He also has 3 monthly files of new titles to add to the clusters. As an ongoing process MOBIUS will get monthly files of EMO records to add, and will get files of records to be deleted twice a year. He will provide access to these files to SLU and WashU as soon as he gets them so they can update their catalogs. Authority records for EMO titles are in various stages of implementation on the cluster catalogs.

9. Other

- Stephen Wynn said there has been a change in how the authority updates lists are being done through Sierra. One library seems to be getting all of the reports in their cluster. Christopher Gould said there is a bug in Sierra and that they have opened a ticket about it at Innovative.
- Jim Dutton reported that they are seeing Canadian National Library authority records being added to their catalog. These sometimes conflict with already established LC authority records. Several other members reported seeing the same thing at their sites. Christopher Gould said to submit a ticket about it at the MOBIUS Help Desk.

10. Minutes submitted by Ted Ostaszewski
