eLibrarian is Digi-Net's library-focused software based on its Groopz E-Commerce software, which is designed for call center use. It supports any language, provided the correct fonts are installed on a computer. The entire patron interface is customizable, including logos, colors, layout, and surveys. **eLibrarian** is offered in both a hosted option and as a license to run on a library server. Standard features include 24/7 software support, email backup, statistical reports, cobrowsing in proprietary databases, and 128 bit SSL security encryption.
