

Agenda for Oct. 18, 2006 Videoconference  
10:00-12:00

- I. MCO Update - Beth Fisher
- II. Airing it Out
- III. Database Cafeteria Survey Results
- IV. Recommendation for limited user license subscriptions use with federated search engines (see draft text below).
- V. Set next meeting date

It is SWAN's turn to take minutes.

Draft Guideline for Federated Search Products and Usage of MOBIUS  
Subscription Resources with Limited Shared Simultaneous Users

Some MOBIUS databases have limited shared simultaneous users for subscribers. With the increasing implementations of federated search engines at MOBIUS institutions, there is concern about the effects of including these databases in the default/general search because they are likely to use the available licenses and deny access for other campuses. We propose that MOBIUS institutions with federated search products do not include such resources in the general/default search. It will be permissible to include such resources in subject specific search categories (e.g., Education, Art, Science).

If you have additional items for the agenda, please send them to me as soon as possible.

Thanks.

Rhonda
