

MCAG Annual Report to the Council

During the period from July 2008 to June 2009, MCAG met online via Connect on August 7, 2008 and March 5, 2009.

Our projects this year included the following:

- We worked with MCO to reduce the number of email notifications sent by the work order system.
- In April 2009, some MCAG and MCDAC members attended an online demo by III of the Local URL product. We evaluated the Local URL product to determine if it could improve the display of URLs in the catalog, and to determine if it could help with some of the URL-related problems that contributed to abandoning the Agency software project. Our initial impression was that it would not help with the problems that led to abandoning Agency, but that it might help with display of URLs in the catalog. We intended to discuss this further with MCDAC via email; because MCAG will be dissolved, this project will need to pass to MCDAC for completion.
- At the March 2009 meeting, we discussed the advisory committee reorganization proposals and after the meeting sent comments to Mollie Dinwiddie and Erlene Dudley.
- MCAG and MCDAC were asked by MAAC to explore whether there is a better way to label items that are on the shelf at a library but not requestable via INN-Reach. We discussed this during an online meeting and intended to discuss further via email. Because MCAG will be dissolved, this project will need to pass to MCDAC and MAAC for completion.

Report respectfully submitted 4/27/09 by Eileen Condon, MCAG Chair
